

GENERAL F.A.Q

Q - Can we plug our device in to your sound system for music?

A - Yes, yes have a great sound system in the Tithe Barn and you can plug in to our speaker in The Garden Room too.

Q - Do you have enough toilets onsite?

A - Yes, the Barn has toilets inside, with disabled access & Baby changing in both toilets and the Hotel has ladies & gents too, just a 20 second stroll from The Garden Room.

Q - For planning my budget, what sort of things do couples normally require when having a wedding with yourselves at The Hundred House?

A - Pretty much everything you need from us is included in our package! It's just the things that aren't provided by us really, so think about what you and your Bridal party are wearing, Hair & Make up, Rings, Photographer, Wedding Insurance, Honeymoon those are the main ones, then there's other things if you wanted them such as an extra entertainment, Photo booth etc - all these are done to personal taste and budget though, don't feel like you need anything extra, it's up to you!

Q - What happens after I book?

A - We will email you everything you need to start planning, including a copy of all the questions we will ask you at your first meeting, so you can start discussing what you'd like etc. We also send you a password for a "secret" part of our website, that unlocks helpful information and documents, such as downloads to send to your resident guests, that tells them everything they need to know, which saves you having to answer lots of questions or gather deposits!

Most couples likely to come in for their first meeting around 1 year from their wedding (or asap if under a year?) and we'll have your final meeting around 1 month before your wedding. Of course, we're here all the way along the journey though - so any questions or advise you need at any point, we're always here!

Q - What are your Bar prices like?

A - We're not Wetherspoons but we're not crazy prices either! Think "Picturesque Pub" prices, no one is going to charge you £15 for a glass of wine here (yes, we've all been to one of those Weddings and cried in to our wallets, we're not like that!).

Q - Do you have card machines for guests to buy drinks with?

A - Yes, we have contactless PDQ machines in all areas.
